FRIDAY, NON. 29, 1889.

Very important additions are being made to the means available to the Canadian and American weather bureaux for forecasting great tropical storms, and tracing from day to day their probable course. The republic of Honduras is establishing a signal service station on the north coast of the Honduras peninsula, and the daily record of observations cabled to New Orleans and thence telegraphed to Ottawa and Washington will give ample warning of the existence of many of the cyclones which sweep up over the lake region or curve round the Gulf of Mexico, and sweep up the Atlantic coast as West India hurricanes. In many instances the proposed station will afford four or five days earlier warning of such storms than can now be had, and will probably be the beginning of a general system of weather reporting throughout America and the West Indies. Such a system is a matter of much consequence, not merely to the Atlantic coast, for a large proportion of our storms come from the Gulf of Mexico. Another valuable addition to the list of signal service stations will be made on the laying of the cable from Halifax to Bermuda, which, situated as it is in the direct line of the march of West India hurricanes, could furnish data without which the varying course of such storms is difficult of determination on the Atlantic seaboard.

The Montreal city council have decided to accept the invitation of the C.P.R. and pay the Northwest a visit shortly. It is likely the trip will be made about the beginning of December. Mr. Van Horne is anxious that the city fathers should see the efforts that competing ports are making to take their trade away, as well as to see the facilities for doing business that exists in western cities. Mr. Van Horn says that the amount of trade seeking ocean freights by way of Montreal as the nearest tide water is very much greater than Montreal has any conception of. There is a great lack of accommodation there. Their facilities are the same as years ago, when

only three or four miles of railway centered there. Now Montreal has 13,000 miles centering there. Duluth, according to Mr. Van Horn, can handle more freight in two hours than Montreal can in a week. There must be great alterations and improvements at Montreal if it is to hold its own against other cities.

Blizzards and starvation are not the only drawbacks to existence in Dakota. The Brandon Mail reports that the Manitoba farmer finds that the taxes of his Dakota neighbor just across the border are double what he pays.

Experiments are now being made in Italy upon this year's vintage in the electrification of wine. Fifty different sorts of wine have already been experimented upon, and the results have been very satisfactory. The wine is clarified, acquires a "bouquet," and is said to stand equally well transport by land or long journeys by sea.

George Francis Train has been adjudged insane, but the indictment against the eccentric man's sanity is not framed in terms that will give peace to the public mind. It is said that Mr. Train has primary monomania, and has an overweening sense of his own importance. Use every man after that standard, and who would escape incarceration?

The election of a Democratic governor in Iowa, a State which not long since gave a Republican majority of about 80,000, is regarded by United States journals as a severe blow to the Republican party. The result is largely ascribed to prohibition, with which the Republican party in that State had identified itself for political purposes. The governor elect was a bold opponent of prohibition.

Lord Lansdowne finds that governing India is not all smooth sailing. He is now being bitterly attacked by the native press for a speech to his council in which he condemned the practice of native officials in the service of the State trafficking in State secrets and confidential documents. Legislation has been put in operation to stop this practice, and the Viceroy is considerably surprised to note that a section of the native press defends it. The tone of the criticisms is exceedingly intemperate, showing how much freedom of opinion exists in this immense dependency of the British Empire.

Lord Stanley of Preston has made an excellent impression upon our fellow countrymen at the Pacific. The people there are thoroughly pleased with him, and the leading journals refer to him in the most cordial terms. They praise his frank, open manners, and the intelligent interest displayed by him in his inspection of the various objects of interest in the country. His Excellency has apparently won the respect of the western folk for his sound judgment and ever ready fund of common sense. It appears to be certain that the longer Lord Stanley lives in the country the better he is liked by the people. A Governor-General of whom that can be said may be sure that his high office is being satisfactorily filled in the eyes of the public.

GENERAL NEWS.

The wife of Mayor Sanderson, member of the House of Commons for North Antrim, on the 17th inst. unveiled the statue of William III, at Belfast. The ceremonies were attended by 30,000 Orangemen.

While Chas. Stewart Parnell is fighting Ireland's enemies in England his aged and infirm mother is fighting starvation in New Jersey. The misfortunes that have followed Mrs. Delia Parnell for many years have culminated at last in this. That she is alone, penniless and actually destitute of the necessities of life. She has now little more than a roof to shelter her. Unless something is done for her relief she will not have that two weeks hence. She is suffering from congestion of the brain and heart. There is nothing on which to feed the live stock. Her Irish servant had wood enough to buy food a couple of days.

The inquest into the recent dam disaster at Alton, which has just concluded, returned the following verdict:—"We find that on the morning of the 13th Nov. one of the centre posts in the water weir of McLellan's dam gave way, resulting in the destruction of three dams and causing a flood, whereby John Harris and his wife, Ellen Harris, came to their deaths by drowning, and that we recommend that an inspector be appointed by the proper authorities to guard against any similar loss of life or destruction of property."

The Leamington Orangemen have resolved to oppose the proposition to have the Grand Lodge apply to the Dominion Government for an Act of Incorporation. Among other reasons given is that such application to the present Parliament "would necessarily involve the degradation of the order before the people of Canada and our brethren in Ireland and Great Britain."

The courtmartial, at Victoria, B.C., of Capt. Hulton, commander, and Lieut. Barrett, navigation officer of the Amphion, was concluded on the 15th. The former was reprimanded, while Barrett was reprimanded and one year's seniority deducted from him.

It is proposed to ask Parliament next session for an act to incorporate the Calgary and Edmonton Railway Company, for the purpose of constructing a railway from the Canadian Pacific railway, or Bow River at Calgary, to Edmonton, with power to extend southerly to the International boundary and northerly to Peace River.

Sir Andrew Stuart, Chief Justice of the Supreme Court of Quebec, has forwarded his resignation to the Government, ill health being the reason assigned. Sir Andrew is well advanced in years, being over 76 years of age.

Edward C. McClelland, the well-known sprinter, was defeated by Peter Preddy in a one-mile race at Exposition Park, Pittsburg, on the 17th. The prize was \$300. As McClelland had never before been beaten in a professional race, the odds were largely in his favor and about \$5,000 changed hands. Time, 4 minutes and 48 seconds.

The Marine Department intend making an enquiry into the cause of the accident to the Amphion on the Pacific coast while Lord Stanley and party were on board.

A rich discovery of coal is reported from North Sydney, and a well known export claims there are 19,000,000 tons in the seam.

G. Lamont, attorney for the Victoria School of Medicine, has just given a written opinion declaring the union between Laval and Victoria universities illegal.

THE GAME ORDINANCE.

Several amendments were made to the game laws of the Territories at the past session of the Assembly. The sections amended are as follows:—

1. Subsection 1 of Section 3 of "The Game Ordinance" is hereby amended by inserting after the word "snipe" the words "and plover."

2. Subsection 3 of Section 3 of the said Ordinance is hereby struck out and the following subsections substituted therefor.

(3) Any kind of wild duck, between the 15th day of May and the 1st day of September.

(4) Any kind of wild goose, between the 15th day of May and the 15th day of August.

3. Section 4 of the said Ordinance is hereby amended by adding to the end thereof the words, "or birds mentioned in this Ordinance."

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Croup, Asthma, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

ADVICE TO MOTHERS.

Are you disturbed at night and broken out by a sick child suffering with crying and pain of cutting teeth? If so, send a once and get a bottle of Mrs. Winslow's SOOTHING SYRUP FOR CHILDREN TEETHING. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures diarrhea, regulates the stomach and bowels, cures wind colic, soothes the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's SOOTHING SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the U. S., and is for sale by all druggists throughout the world. Price 25c a bottle.

The wise man never misses T.O. Davis' store when he wants to save money.

The Saskatchewan Rink was opened by a grand skating tournament on Wednesday evening, which was a great success. It is unfortunate arrangements were not made for evenings to be set aside for skating.

The ladies of St. Ann's Convent gave a dinner, to the workmen employed on the new building, last evening, to which sixteen of the men sat down. A very enjoyable evening was spent. Architect Fawcett presided, who on moving a vote of thanks to the ladies for their kindness made an able speech, which was seconded by Mr. Jos. Kernaghan. The party broke up about 10.30 p.m.

LOOKING FOR IT IN ENGLAND.—The demand in England for the Christmas number of the Montreal Star is something unheard of—a great compliment to Canadian enterprise. It is quite encouraging to hear English and Scotch people, where ever you go on the other side saying: "The Christmas Star was the best of them all." The great American news companies are urging the publishers to sell the Christmas Star in the States, but there will not be more than enough to fill the Canadian demand. There are four supplements with the Christmas Star this year.

CLARK'S CROSSING.

Track laying on the Q. & L. L. R. is about stopped and rails are laid to within about 75 miles of Saskatoon. Grading operations are still in progress in Saskatoon. Work on the bridge excavations has stopped.

Jas. Leslie, teacher, has been appointed a J.P.

J. F. Clarke lost a valuable horse through the ice Saturday. A calf belonging to R. J. Molloy has also disappeared and has likely gone with the horse.

Travel between Saskatoon and Duck Lake, via Clark's Crossing, is quite brisk and will be kept up during the winter.

The weather is mild.

NEWS ITEMS.

Wm. Harvey, a laborer, was smothered by a mass of fallen earth on Thursday last at Hamilton. He was 35 years of age.

R. N. England, Conservative, and H. T. Duffy, Liberal, were nominated at Knowlton, Que., for the Provincial House.

The mangled body of Henry Barton, a butcher of West Brantford, was found on the railway track near Mount Pleasant a few days ago. He was very deaf.

The Toronto Board of School Trustees have resolved to enforce that clause of the Public School Act authorizing compulsory education, and will apply to the City Clerk for the names of all eligible children.

The West York Conservatives have nominated Mayor Clendennan, of West Toronto Junction, for the Local House. A resolution expressing confidence in the Ontario Opposition and its leader was passed.

C. A. Cornellier, Q.C., has returned to Montreal from Quebec where he instituted proceedings against whiskey smugglers. He suggests that the only remedy for this smuggling is to fit out a cruiser to pursue smugglers and especially to intercept them in the gulf.

Miss Sweetland, a young lady well connected in Kalamazoo, Mich., has been arrested charged with forging Albert J. White's name to a note for \$150 and a mortgage security on some land which she sold him under a contract. The note and mortgage were given to an uncle of Miss Sweetland, from whom she borrowed money. She has been in a similar trouble before.

Jay Gould, the Manhattan Elevated Railroad Co., and W. U. Telegraph Co. subscribed \$25,000 each to the World's Fair Guarantee Fund. The Standard Oil Co., through Wm. Rockefeller, subscribed \$100,000 to the fund.

The Duluth & Winnipeg R. will begin running regular trains next week to the Mississippi River. The road is entirely constructed to Grand Rapids. President Fisher and other officials have been over the road and accepted it from the contractors. Next year it will be finished to Winnipeg.

It is not certain at which port the vessel conveying Dom Pedro from Brazil will arrive at, but it is believed to be improbable that she will land at Lisbon. It is expected that she will call at St. Vincent.

At the regular annual meeting of St. Andrew's Society held on Saturday evening last, the following officers were elected for the ensuing year:—John Stewart, President; James McKay, 1st vice-Pres.; G. THE ODELL TYPE WRITER

\$15 will buy the ODELL TYPE WRITER.

Warranted to do as good work as any \$100 machine.

It combines SIMPLICITY with DURABILITY—SPEED, EASE OF OPERATION—wears longer without cost of repairs than any other machine, has no ink ribbon to bother the operator. It is neat, substantial, nickel plated, perfect, and adapted to all kinds of type writing. Like a printing press, it produces Sharp, Clean, Legible Manuscripts. Two to ten copies can be produced at one writing. Editors, lawyers, ministers, bankers, merchants, manufacturers, business men, etc., cannot make a better investment for \$15. Any intelligent person in a week can become a GOOD OPERATOR or a RAPID ONE in two months.

\$1,000 offered any operator who can do better work with a Type Writer than that produced by the ODELL.

Reliable agents and salesmen wanted. Special inducements to dealers. For pamphlet, giving endorsements, etc., address the
